You can also use some parts of our website without needing to register or log in. Even if you don't log in to the website, we will still record certain information automatically so that we can collate data on how our website is used and how efficient it is in a bid to adjust it to our users' needs. We will therefore collect and process information on your IP address, the time and length of your visit, the number of visits you make, which forms you use, your search settings, your display settings and your favourite settings on our website. Different cookies are stored for different lengths of time. The majority of the cookies we use are automatically deleted when you leave our website (the so-called "session-cookies"). We log access to our website and downloads of files from the website. We also use the following tools:

#### **Google Analytics and Jentis**

We use Google Analytics, a web analytics service provided by Google LLC, 1600 Amphiteatre Parkway, Mountain View, CA 94043, ([www.google.de/analytics](http://www.google.de/analytics)), to analyze the behavior of our website visitors and to continuously improve our website. Google Analytics uses cookies, but only anonymized personal data is provided to Google. To achieve this we use services of the company JENTIS GmbH (Schönbrunner Straße 231, 1120 Vienna) in connection with Google Analytics. Through this service provider we use a de-identification mechanism that automatically truncates IP addresses by the last digit, making it impossible to identify a specific European visitor from their IP address alone. Only the anonymous data is then transferred to a Google server in the USA and stored there. This service provider therefore receives access to web analysis data, which is measured, stored, and processed by the analysis tools in use and JENTIS. JENTIS cookies jctr\_sid (Session ID) and jts-rw (User-ID) are used.

For analysis purposes, data is transmitted to JENTIS and JENTIS also collects data on our behalf independently with regards to the browser environment or the behavior of visitors. JENTIS only processes data that cannot be traced back to a person. IDs set by JENTIS are merely random products and are used for anonymous recognition. Your IP address is shortened before it is stored so that it is no longer personally identifiable.

#### **Functional Cookies**

Due to the dynamic structure of our website, additional cookies only for short-term use may be used, particularly for temporary promotions.
